

HYDRO-PNEUMATIC TANKS

The West Coast Leader for Diversified Steel Storage Systems for the Food Processing Industry

Manufacturers of Tanks, vessels, bins & silos for chemical & petroleum, water treatment, plastics, food processing, mining, aggregate & industrial applications

DESIGN

Steel Structures, Inc. has been designing and fabricating diversified steel storage systems since 1954. Professional Engineering and CADD designers work with you and your engineers, to assure your tanks and vessels are built to your exacting specifications.

MANUFACTURING

Steel Structures, Inc. retains skilled craftsmen with the experience and talent needed to make high quality shop-fabricated hydro-pneumatic tanks.

Steel Structures, Inc. maintains a rigorous **quality control system** coupled with advanced tooling and production techniques to assure that your steel storage system is built correctly, accurately and efficiently.

MATERIALS AND COATINGS

To satisfy requirements for corrosive and non-contaminating service, we offer stainless steel, alloy or carbon steel and comprehensive coating capabilities. Our state-of-the-art sandblasting facilities, operated by experienced personnel, provide the all-important SSPC surface preparation. This process assures the lasting protection of our quality internal linings and paint applications.

THE STEEL STRUCTURES ADVANTAGE:

- *Carbon or stainless steels*
- *All welded construction*
- *Custom design and fabrication – ASME Section VII Division One requirements and Code Stamped*
- *Capacities available up to 50,000 Gallons*
- *ASME-AWWA-API-UBC-UL Codes compliance*
- *State-of-the-Art Factory SSPC blasting & coating to AWWA & NSF guidelines*
- *Competitive pricing and on-time delivery*
